Mirror Image: Training to Combat Terrorism

Sept. 25-29, Oct. 16-20, Nov 13-17, 2017

Total Immersion training at the Spartan Ranch in Maysville, NC

The Terrorism Research Center's **Mirror Image** training program is a five day classroom and field training program designed to simulate terrorist recruitment, training, techniques and operational tactics. Participants will receive insight into the mindset and operational methodology of the terrorists through **total immersion**, hands-on experience, and education about ideologies that motivate them and the cultural dimensions that influence their decision making.

Since 2002, Mirror Image participants are divided into cells and replicate the various operational roles within a cell. Cells are briefed on targets and develop execution plans. Cells will operate in hardship conditions and will eat, sleep and train as a tight knit network. Each day, the participants will be taught a comprehensive program by a host of international terrorism experts.

Cell learning the best way to assault a target by a legend of the NSWG Community.

“I am a believer and often indicate every Intelligence and counterterrorism professional should take your course. I reviewed what you have done with your course curriculum and realize your training is even more important now.”

“The quality of the training during the Mirror Image® Course was exceptional. All of the instructors were not merely subject matter experts, but masters of their subjects with both impressive credentials and extensive real world experience. The overwhelming opinion of the officers that attended the Mirror Image Course is that this course was very effective in putting them into the mind of the Islamic Terrorists we are fighting in the Global War on Terrorism (GWOT) and would be exceptionally valuable training immediately prior to a deployment to a GWOT Theater of Operations. The Brigade S-3 and Brigade Commander both commented that this training was also more effective in teaching the cultural aspects of the Arabic culture than the courses which our Brigade’s senior personnel attended at the Naval Post Graduate School immediately prior to deployment to Iraq for OIF II.”

Cutting Edge **Mirror Image Training Since 2002**
